

## National Coach Services Database (NCSD) guidance

The National Coach Services Database (NCSD) comprises coach services not contained in Traveline data, namely...

OPERATOR	SERVICES
National Express	<ul style="list-style-type: none"><li>• Over 100 regular services within England, Scotland &amp; Wales</li><li>• Various seasonal, event-specific services</li></ul>
Megabus	Over 30 regular services within England, Scotland & Wales
Terravision	Four airport transfer services
EasyBus	Frequent services from London to Gatwick, Luton and Stansted airports
New Bharat	Two services, London-Bradford and London-Wolverhampton

NCSD is made available in TransXChange (TXC) format (see <https://www.gov.uk/government/collections/transxchange> for more information). This is the same format used for the [Traveline National Data Set \(TNDS\)](#).

Data is either provided by the coach operator or compiled from operator websites. Updates are made weekly.

In addition to the data, an 'Included services' CSV file is published each week. This shows which coach services are included in the current week's data.
